

SUMMARY

Highly motivated aspiring Web developer with a strong foundation in web development principles and a keen interest in data science and software development.

Currently pursuing a degree in B.tech CSE. Good command in Data Structures and Algorithms. Further honed my Problem-solving skills through Competitive programming. Building personal projects using MERN stack(web), Scikit-learn(Machine Learning).

Python (GUI, Web Scrapping) to solidify my understanding and explore my interests. Eager to learn from industry professionals and contribute to a team environment, expanding my skillset in data analysis and software development.

SKILLS

Technical Skills

- Competitive Programming(70+ question on LeetCode and 5 stars in Hackerrank)
- MERN Stack Web Dev
- Python Programming(5 stars in Hackerrank)
- C++,Java,JavaScript
- MySQL,MongoDB
- Object Oriented Programming
- Scikit-learn(Machine learning)
- HTML,CSS,Bootstrap

Soft Skills

- Verbal and Written Communication
- Teamwork
- Leadership
- Time Management
- Flexibility
- Patience

PROJECTS

- **Diabetes Checker** - This project is a Quart web application that incorporates machine learning to predict the risk of diabetes based on user input. The application allows users to input various health parameters and get a prediction regarding their risk of diabetes.

Technology used - hypercorn, numpy, pandas, Quart, scikit-learn.
GitHub - <https://github.com/abhirai7/Diabetes-Checker>

- **Blog site** - This is a dynamic and user-friendly blog writing site. Includes features such as composing new posts, managing new posts etc.

Technology used - JavaScript, Express Js, EJS, MongoDB, Mongoose.
GitHub - <https://github.com/abhirai7/blog-site>

- **Student Management System** - The Student Management System is a Java-based GUI application designed to manage student information, enroll students in courses, assign grades, and display student performance. The application provides a user-friendly interface for administrators to manage student data efficiently.

Technology used - Java swing, awt, SQL.
GitHub - <https://github.com/abhirai7/Student-Management-System>
